

During the course of this Leadership Summit session, we will explore advocacy initiatives, action steps, and resources to help prevent, prepare for, respond to, and recover from incidents of gun violence. As we move through the session, take notes on how you can follow up, people you can talk with about advancing your Association's gun-violence work, organizations you can explore collaborating with, and anything else that comes to mind. At the end of the session, you will use this sheet to create an action plan.
