Gender Unicorn Definitions

Gender Identity: *How I identify.*

One's internal sense of being male, female, neither of these, both, or another gender(s). For transgender people, their own internal sense of gender identity and their sex assigned at birth are not the same.

Gender Expression/Presentation: *How I look and express myself.*

The physical manifestation of one's gender identity through clothing, hairstyle, voice, body shape, etc. Most transgender people seek to make their gender expression (how they look) match their gender identity (who they are), rather than their sex assigned at birth.

Sex Assigned at Birth: *The sex classification that I was assigned at birth.*

The assignment and classification of people as male, female, intersex, or another sex based on a combination of anatomy, hormones, and chromosomes. This is usually decided at birth or in utero, and is usually based on genitalia.

Physically Attracted To: *Whom I am physically attracted to.*

The group of people or genders to which a person can become physically attracted to, if at all.

Romantically/Emotionally Attracted To: *Whom I am romantically/emotionally attracted to.*

The group of people or genders to which a person can become romantically, emotionally, or spiritually attracted to, if at all.

Examples of Genders: We included "other genders" to indicate the many genders that other people might identify as, express themselves as, and be attracted to. Examples of these genders include: Agender, Bigender, Genderfluid, Genderqueer, Transgender, Non-binary, Gender Non-Conforming and Two-Spirit.
