HBCU SKILLS TO WIN VIRTUAL TRAINING SERIES

Why?

Black history is organizing and labor history.

It is crucial that Black Aspiring Educators, Faculty, Staff, and Graduate Employees know this history and lead in the efforts to organize today.

As HBCU funding and diversity, equity, and inclusion efforts on campuses are under attack, it is up to us to protect the higher education institutions that produce nearly 20% of Black college graduates, despite only comprising 3% of all four-year colleges and universities. Notably, HBCU grads include 50% of Black public school teachers.

Join your union today to learn how you can organize to win!

How?

Reach out to fellow colleagues and classmates of yours who may also be interested to invite them! All attendees must be NEA members to attend.

It is recommended to have a team of 2 or more people attend, so that you can work together to apply what you learn at your own campus. It is recommended that at least 1 team member attend each session and share the information to the other team members.
