

READ ME FIRST

In this module are the participant handouts that you will need to be able to access throughout our time with you. They will support group work and your own individual reflections. These files should be downloaded and saved to your device prior to writing on them - or your work will not save. You can also simply print them, and handwrite on them. The handouts are provided as one PDF file that you can download to your device. The pages that you will have to write on have been created as fillable PDFs should you wish to work on them in your device. An additional file in this module is the Campaign Planning Worksheet. This is a fillable form PDF, can be saved to your device for electronic completion or may be printed to use a paper handout while with us.
